

## **A Spotlight: On Ngambe-Tikar**

By TechCeFaCos NGO Cameroon  
Public Relation & Media Centre

Projecting Desperate Communities And Associating With Local Base Community Development Groups, NGOs And Individuals.....*In Making Differences Together!*

'Project of Great Hope-Mission One: De-Worming In Children and Community Pipe-Born Water Program'

1. **Desperate Pygmies Communities** of Ngambe-Tikar in the upper bounders of the Central Region of Cameroon is an exemplary desperate community.

2. The pygmy communities of Ngambe-Tikar are commonly known as **'Pygmy Camps'** and there are six in number: *Mbonde, Nkween, Ngume, Ngandji, Yinji and Manso Camps.*

3. Pygmies are special tribe of African people, spread most in forest regions and live in very desperate situations of basic needs like that of **Health & Sanitation; Pipe-born Water & Nourishment; and Housing & Clothing.** Lack of education and family planning has also led to prevailing high birth rates in these communities!

4. **'Time-Of-Realization'** has started for a *'great hope'* with them, as the celebration of 'Holiday for Hope' organized [TechCeFaCos NGO Cameroon](#) and ['Dreams of Kids' US](#) is the springboard for another great initiative: **'Project of Great Hope'** as an extended 'Humanitarian Programme' of TechCeFaCos NGO to support desperate people like pygmies of Ngambe-Tikar.

5. **'Together We Can Make It'**...the moral support of Navti Foundation NGO Cameroon and DIDAVIV NP School Kumbo for the above event proves how significant the role of local cooperation can be to enhance situations of humanity in need through **Mutual Help.**

6. **'Take Action Now'**...TechCeFaCos NGO Cameroon is appealing to well-wishers and persons of goodwill to join them make a team to undertake again another humanitarian mission to Ngambe-Tikar: **'Project of Great Hope-Mission One: De-Worming In Children and Community Pipe-Born Water Program'**.

7. Appeal Letter, Application and Support Document are available!
