Dear Friend of TechCeFaCos!

This year marks the beginning of years of great hope with a variety of **innovative and strategic plans** for all of us to help promote and help: **TechCeFaCos Move Forward-an appeal for support and collaboration campaign in helping us attain our mission of promoting creativity and technological empowerment by adapting a holistic approach for achieving sustainable and millennium development objectives on a global level.**

We have recently resumed from a period of 'inactivity', by putting in place some innovative and strategic plans under our various services. A recent issue with our Portuguese's volunteer has inspired us to take drastic measures in restructuring the organisational executive board membership and services of the organization, as well as the innovative and strategic plans set at work.

This is why we ask for your courage as well as support and collaboration through any of the following ways:

 - Bank Transfer - through our 'Bank Account' created for us by Maria!
 - Sign and Offer a 'Bank Cheque' - through any of our representatives: Kiran - USA!For any donation in-kind, please contact us for possible best donation means.
Please be confident that your gracious donations will Help TechCeFaCos Move Forward!
2. **Get Involved and Help Promote** any of our initiatives based on our '2011 Action Plan' or 'Plan of Action'. (It's on the attached draft document-TechCeFaCos 2011.)
3. You may equally get involved by:
